

FOR WOMEN:

21. At what age did you begin to menstruate?
22. Did you have any trouble or symptoms at that time?
23. Are your menstrual cycles regular? How many days typically between cycles?
24. How long does the menstrual flow last?
25. Would you estimate that your flow is heavy, average or light?
26. Do you have any pains or problems during the time of your menstrual flow?
27. Do you have any problems or symptoms before or after your menstruation?
28. What birth control method do you use?
29. If you have ever used birth control pills, when did you take them? For how long? Did they affect you adversely?
30. If you are now menopausal, what was the date of your last menstruation?
31. Did you have any problems during that time?
